

# Skill on Line and USLACC Africa: a Partnership for Africa's Technological Development

**Skill On Line SRL and USLACC Africa** (United States Latin American Chamber of Commerce Africa) have formed an **unprecedented collaboration** to promote **sustainable and accelerated development in Africa**, aiming for excellence in the digital and technological sectors.

**Skill on Line**, accredited by the Italian Ministry of Education, *has over 20 years of experience in e-learning, digital skills training, and professional development for school staff*. It is also a recognized **exam center for issuing European Digital Skills Certificates (EDSC)**, adhering to **DigComp 2.2 standards**.

On the other hand, **USLACC Africa**, a branch of USLACC in the African continent, **is dedicated to fostering economic and social growth** by building bridges between Africa, the United States, and Latin America.

**The agreement** paves the way for impactful initiatives in Africa, providing people and institutions with the **opportunity to certify and develop advanced digital skills**.

The **"TECH D-PAY"** project, launched in December 2023, is one of many initiatives designed to position African youth as tech investors, ICT experts, and digital creators, contributing to Africa's technological and economic growth.

**The partnership between Skill On Line and USLACC Africa aims to:**

- **provide, coordinate, and certify European Digital Skills (EDSC) based on DigComp 2.2 across Africa**, creating learning opportunities for students and professionals
- **organize certification exams in multiple languages**, including English, Italian, Spanish, and French, making digital certifications more accessible
- **collaborate in scientific research, organize conferences or training sessions**, and promote academic and cultural programs
- **offer training to African youth in the digital and emerging technologies sectors**
- **implement technological and digital internship programs** in Italy and other technologically advanced nations.

*This agreement is a key step towards an Africa that can compete in the global digital and technological landscape.*

The combination of **Skill on Line's academic and business experience** with **USLACC Africa's strategic vision** creates **fertile ground for innovation and sustainable economic development**.

The partnership aims not only to **train new generations of digital talent in Africa** but also to foster greater **international integration and strategic partnerships** for economic and social growth.

*Skill on Line and USLACC Africa are positioned as catalysts for positive transformation that will bring tangible and lasting benefits to all involved.*

The path towards a technologically equipped and digitally inclusive Africa has been laid, and **this partnership is just the beginning of the journey that Skill on Line and USLACC Africa will follow together**.
